

BASURA PROJECT COMMUNITY

OBJECTIVE

- This website aims to inform users and acts as a reminder for everyone to participate in conversation and encourage recovery through proper waste disposal.
- To donate money, assist others in the neighborhood in turning garbage into income, and to preserve the environment so that we may all live in a clean and healthy.

Development process

Create a wireframe to pick some designs and plan

To research and gather information and other necessary

Website will used and built from scratch. And development of the website given timeline.

I use served bootstrap, carousel, navbar, card, space link, and object.

THANK YOU
